REPORT OF GUNSHOT AT NORTH END RESIDENCE

Local man rushed to Harborview

(Edmonds - WA)

A local man has died from a gunshot wound after being rushed to Harborview Medical Center in Seattle. The call came in around 11:25pm on January 6th, 2018. Edmonds patrol officers responded to a house in the 17700 block of 76th Avenue West after people at the house reported hearing a gunshot from upstairs. They found a 27-year-old man from the Edmonds area with a gunshot wound. An aid crew rushed the man to Harborview where he was pronounced deceased a short time later.

Detectives have been at the scene overnight and the Washington State Patrol crime lab has been helping collect evidence. Because this investigation is still in the early phases, detectives are still sorting out what took place. We have no additional details at this time and will release further information as it become available.
