238th St SW Walkway and Drainage Improvements

(Edmonds – WA) The City of Edmonds will be presenting the scope and schedule for the construction of the 238th St SW Walkway and Drainage Improvements at 6pm on Wednesday, March 18, 2015 in the Sherwood Elementary School gymnasium. The City is continuing the design phase for this project and is looking for public comment.

This project will construct walkway and drainage improvements on 238th St SW from 104th Ave W to 100th Ave W. The goals of the project are to improve the safety of pedestrian and bicycle access to Sherwood Elementary School, to promote walking/biking as means of transportation, and to address numerous drainage complaints within the project area. The City has also teamed with Cascade Bicycle Club and the Edmonds Bicycle Advisory Group (EBAG) to bring safety education classes into Sherwood Elementary School.

The City was successful in securing \$591,000 in grant funding to supplement local funds for the construction of this project. The project is on a common walking/biking route to Sherwood Elementary School.

If you have any questions, please contact Ryan Hague at 425.771.0220 x1347 or send an email to ryan.hague@edmondswa.gov
