Madrona Elementary Walkway Project

236th St. Street Closure

(Edmonds - WA) The City of Edmonds will close 236th St. to through traffic between State Route 104 and 92nd Ave from Monday, April 24th to Friday April 28th. Residents who live on this section of 236th St. will be able to access their homes. Access will be difficult at times and delays are highly likely, especially during the working hours of 7AM-5PM, Monday-Friday. Residents should allow extra time when leaving or entering the closure area. Anyone wishing to pass through this area will be required to use the attached detour.

The street closure is necessary for construction of the new sidewalk and pavement on 236th St. west of State Route 104. Construction is expected to be completed by June.

We appreciate your continued patience as we work to improve 236th Street.
