7th Ave N Closure Friday, August 3

(Edmonds - WA) The City of Edmonds will close 7th Ave N to through traffic between Bell and Daley Streets on Friday, August 3rd. Residents who live on this section of 7th Ave N will be able to access their homes, however access will be difficult at times and delays are highly likely. Residents should allow extra time when leaving or entering the closure area. Anyone wishing to pass through this area will be required to follow the attached detour.

The closure is necessary to complete paving repairs on 7th Ave following sanitary sewer line installation. The sewer project will continue the planned installation of sewer on Edmonds St east of 7th Ave N, and is expected to wrap up that work in September.

We appreciate your continued patience as we work to improve our City's infrastructure.
