Transportation

Mathematics

Letters

Dd, Jj, Xx

Numbers

9, 10

Continue to ...

Continue to provide challenges for your child, continue to have patience when your child struggles, continue to practice their early literacy by writing stories, continue to ask for their help to build independence and confidence, continue to show support and guidance, continue to tell them you are proud and love them.

Continue so soak up every minute you can with your child(ren) because these years are truly fleeting. There are moments, and sometimes days, of struggles and exhaustion – but it's how you respond that will be recognized by your child.

Continue to give yourself some down time. Your children need to witness that parents also need some time for their well being. It's a good time for reflection and resetting.... both you and your child will benefit 😊

Continue to smile. A simple smile offers many unspoken words that can help your child realize that “everything will be alright”

For your Calendar

March 1
2021-2022 Preschool
Registration Begins

March 3
Kindergarten Registration
Begins (ESD)

Quote for the Month

“Promise me you will always remember - you are braver than you believe, stronger than you seem and smarter than you think” --

Christopher Robin to Pooh

Meadowdale Preschool will be closed for Spring Break April 5-9 (the same as ESD). Email is the best form of communication if you need to contact the preschool during this time. Enjoy the week with your little ones – explore, experiment and have fun. See you April 12!

MATH BAGS

Math Bags will begin soon. We are so excited to begin this unit of our curriculum. This is such an exciting time when the children explore concepts of math based on simple materials brought from home. Using items brought from home we will sort based on attributes, graph, estimate, add/subtract, weigh, measure and compare throughout this unit.

Your child's Math bag and instructions will be sent home soon.

Using Math Bags is something that can be carried on during the summer months, over vacations and with other family members.... keep the fun in learning!

HEALTHY TIDBITS

Some good reasons why Meadowdale Pre-K has gross motor activity everyday...it benefits the whole child!

WHY DO OUR CHILDREN “ACT OUT” MORE AROUND THEIR PARENTS THEN ANYONE ELSE?

There are times when you might think, “what am I doing wrong” because my child always seems to act up around me and no one else. You’re not alone, and believe it or not, it is actually a compliment because they feel you provide such a safe environment. The following article is a great write-up on why this happens...and when you’re done reading it, you can breathe a sigh of relief 😊
