 Methodology differences may exist between data sources, and so estimates from different sources are not comparable.

Some estimates presented here come from sample data, and thus have sampling errors that may render some apparent differences between geographies statistically indistinguishable. Click the Quick Info  icon to the left of each row in TAI to learn about sampling error.

The vintage year (e.g., V2023) refers to the final year of the series (2020 thru 2023). Different vintage years of estimates are not comparable.

In Vintage 2022, as a result of the formal request from the state, Connecticut transitioned from eight counties to nine planning regions. For more details, please see the Vintage 2022 release notes available here: [Release Notes](#).

The Civil Rights Restoration Act of 1987 clarified the original intent of Congress, with respect to Title VI and other Non-discrimination requirements (The Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973), by restoring the broad, institutional-wide scope and coverage of these non-discrimination statutes and requirements to include all programs and activities of the Recipient, so long as any portion of the program is Federally assisted.

6. That where the Recipient receives Federal financial assistance in the form, or for the acquisition of real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.
7. That the Recipient will include the clauses set forth in Appendix C and Appendix D of this Assurance, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Recipient with other parties:
 - a. for the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
 - b. for the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.
8. That this Assurance obligates the Recipient for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the Assurance obligates the Recipient, or any transferee for the longer of the following periods:

- a. the period during which the property is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or
 - b. the period during which the Recipient retains ownership or possession of the property.
9. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.
10. The Recipient agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Acts, the Regulations, and this Assurance.

By signing this ASSURANCE, the City of Edmonds also agrees to comply (and require any sub-recipients, sub-grantees, contractors, successors, transferees, and/or assignees to comply) with all applicable provisions governing the WSDOT access to records, accounts, documents, information, facilities, and staff. You also recognize that you must comply with any program or compliance reviews, and/or complaint investigations conducted by the WSDOT. Environmental Justice & Supplemental Indexes

The environmental justice and supplemental indexes are a combination of environmental and socioeconomic information. There are thirteen EJ indexes and supplemental indexes in EJScreen reflecting the 13 environmental indicators. The indexes for a selected area are compared to those for all other locations in the state or nation. For more information and calculation details on the EJ and supplemental indexes, please visit the [EJScreen website](#).

EJ INDEXES

The EJ indexes help users screen for potential EJ concerns. To do this, the EJ index combines data on low income and people of color populations with a single environmental indicator.

EJ INDEXES FOR THE SELECTED LOCATION

SUPPLEMENTAL INDEXES

The supplemental indexes offer a different perspective on community-level vulnerability. They combine data on percent low-income, percent linguistically isolated, percent less than high school education, percent unemployed, and low life expectancy with a single environmental indicator.

SUPPLEMENTAL INDEXES FOR THE SELECTED LOCATION

These percentiles provide perspective on how the selected block group or buffer area compares to the entire state or nation.

*Diesel particulate matter, air toxics cancer risk, and air toxics respiratory hazard index are from the EPA's Air Toxics Data Update, which is the Agency's ongoing, comprehensive evaluation of air toxics in the United States. This effort aims to prioritize air toxics, emission sources, and locations of interest for further study. It is important to remember that the air toxics data presented here provide broad estimates of health risks over geographic areas of the country, not definitive risks to specific individuals or locations. Cancer risks and hazard indices from the Air Toxics Data Update are reported to one significant figure and any additional significant figures here are due to rounding. More information on the Air Toxics Data Update can be found at: <https://www.epa.gov/haps/air-toxics-data-update>.

PUBLIC VIRTUAL WORKSHOP TO DISCUSS PERRINVILLE CREEK WATERSHED STORMWATER MANAGEMENT ACTION PLAN

**Join us for an online meeting to learn about the selection process and
future objectives.**

(Edmonds - WA) The Department of Ecology's stormwater planning guidance requires the City of Edmonds to select and prioritize a local watershed for improvement by March 31, 2023. This process is driven by Ecology's *Western Washington Phase II Municipal Stormwater Permit* as part of the Federal National Pollutant Discharge Elimination System (NPDES). The City is producing a Stormwater Management Action Plan (SMAP) for the Perrinville Creek watershed to comply with Ecology's permit requirements.

The City of Edmonds along with Herrera Consulting, recently completed a year-long water health assessment, with public input, examining nine potential local watersheds that would benefit from implementing stormwater policies, programs projects, and maintenance practices. Metrics such as water use importance, development and growth, and habitat conditions were all evaluated during this process. The outcome of this study revealed *Perrinville Creek Watershed* had the highest water use importance and thus was identified as the principal watershed for improvement moving forward.

Join us for one of two virtual workshops on Wednesday, February 22nd at 12:00pm or 6:00pm to listen and discuss the proposed *Perrinville Creek Watershed* improvement actions. Learn more about the overall watershed assessment, selection process, and how the City plans to implement these actions.

To read more about this project and register for the virtual workshop, please visit the City's website:

STORM & SURFACE WATER COMPREHENSIVE PLAN UPDATE

Stakeholder engagement process outlined

(Edmonds - WA) – The City is working to update the *Storm and Surface Water Comprehensive Plan* (SCP). This plan will guide the operation of the City's Stormwater Utility with the goals, to support and sustain the economic vitality of the city, build resilience, and reduce the impact of runoff on aquatic resources. The SCP identifies actions that will be taken for:

- **Urban Flood Control:** Keep streets and private property dry to the maximum extent possible (Public health and safety & economic vitality).
- **Environmental Protection and Regulatory Compliance:** Comply with Washington State Department of Ecology (Ecology) Municipal Stormwater Permit and all other applicable environmental regulations.
- **Asset Management:** Operate, maintain, and upgrade stormwater infrastructure in a cost-efficient manner.

The SCP will define the stormwater system needs and develop a fair and reasonable apportionment of the cost of providing and maintaining services and facilities. The plan will identify the need for:

- **Stormwater Retrofit Capital Projects:** Refit existing infrastructure to reduce the impact of City stormwater flows on aquatic environments (On the Land)
- **Stream Habitat Improvements:** Reconnect floodplains, re-plant riparian (streamside) corridor, remove barrier culverts, and improve in-stream conditions (In and adjacent to the stream; City-owned property only) and, possibly through public/private partnerships.

The City's current SCP was adopted in 2010 and needs to be updated because:

- **Regulations change** - Ecology recently issued a new draft of the Municipal Stormwater Permit that will be effective starting in 2024, the City needs a plan to stay in compliance.
- **Our climate is changing** – stormwater management must adapt to changing conditions.
- **Growth is happening:** more growth, more runoff to manage.

- **Attitudes change:** the SCP needs to reflect the viewpoints of all stakeholders.

Ways to Get Involved

Development of the SCP will include ongoing engagement with Edmonds community members and other stakeholders. We are seeking input on flooding issues you are most concerned about in your community and feedback on goals and policies for the plan through the following:

- Fill out the online [public survey](#) (early October through November 17, 2023).
- Attend an online public workshop (October 18, 2023.)
- Provide input at an in-person community event (to be determined - see web page).

The goals for the SCP will be integrated in the overall City Comprehensive Plan currently being updated, as well.

The project web page hosts the project survey, describes how to attend an on-line open house, and will have the information about the in-person community event. Access this page by using this web address <https://edmondswa.gov/sswcplan> or the following QR code:

에드먼즈시, 폭우 및 지표수 종합 계획 업데이트

에드먼즈시 보도자료
공공 사업 및 유틸리티부 – 엔지니어링
121 5th Ave N, Edmonds, WA 98020

Local

에드먼즈시가 폭우 및 지표수 종합 계획(SCP)을 업데이트하고 있습니다. 이 계획은 도시의 폭우 수도 서비스 운영을 지원하여 유지하도록 하며, 경제 활성화를 지원하여 지속 가능하게 합니다. 또한 저류수에 미치는 영향을 줄이고 도시의 내성을 강화하는 것을 목표로 합니다. SCP는 다음과 같은 조치들로 구분합니다:

- **도시 홍수 통제:** 거리와 사유지를 가능한 건조하게 유지합니다(공중 보건, 안전 및 경제적 활성화).
- **환경 보호 및 규정 준수:** 워싱턴주 생태부의 지방자치단체 폭우, 빗물 허가 및 기타 모든 해당 환경 규정을 준수합니다.
- **자산 관리:** 경제적이며 효율적인 방식으로 빗물 기반 시설을 운영, 유지 및 개선합니다.
SCP는 폭우 시스템의 필요성을 정의하고 서비스 및 시설을 제공하고 유지하는 비용을 공정하고 합리적으로 분담할 것입니다. 이 계획은 다음과 같은 필요성으로 구분합니다:

- **폭우 개량 자본 프로젝트:** 기존 인프라를 개량하여 폭우 유량이 수생 환경에 미치는 영향을 줄입니다 (지상)
- **하천 서식지 개선:** 범람원을 재연결하고 강기슭(하천변) 지대를 재정비하며 장애물 배수로를 제거하고 하천 내 조건 (하천 내부 및 주변, 시소유 자산만 해당)을 개선하는 것은 공공/민간 파트너십을 통해 가능합니다.
시의 현재 SCP는 2010년에 채택되었으며 업데이트가 필요한 이유는 다음과 같습니다:

- **규정 변경** – 주 생태부는 최근 2024년부터 발효될 지방자치단체 폭우 허가의 새로운 초안을 발표했습니다. 시에서는 규정을 준수하기 위한 계획이 필요합니다.
- **기후가 변화하고 있습니다** – 빗물 관리는 변화하는 조건에 적응해야 합니다.
- **성장하고 있습니다:** 더 많은 성장이 이루어지고, 관리해야 할 유출량이 더 많아지고 있습니다.
- **태도 변화:** SCP는 모든 이해관계자의 관점을 반영해야 합니다.

참여하는 방법

SCP 개발에는 에드먼즈 지역 커뮤니티 구성원 및 다른 이해관계자들과의 지속적인 참여가 포함될 것입니다. 다음 방법으로 귀하의 지역에서 가장 우려하는 홍수 문제 및 계획의 목표와 정책에 대한 의견을 얻고자 합니다:

- 온라인 공개 설문조사를 작성하세요(2023년 10월 초부터 11월 17일까지)
- 온라인 공개 워크숍에 참석하세요(2023년 10월 18일)
- 직접 커뮤니티 이벤트에서 의견을 제공합니다(미정 – 웹페이지 참조)

또한 SCP의 목표는 현재 업데이트 중인 도시 종합 계획 전반에 통합될 것입니다.

프로젝트 웹 페이지에는 프로젝트 설문 조사가 호스팅되어 있으며 온라인 오픈 하우스 참석 방법을 설명하며, 지역 커뮤니티 이벤트 정보도 나열됩니다.
